

SIERRA CLUB

FOUNDED 1892

The Maryland Sierra Club is seeking highly motivated, hard-working and dedicated students for our internship program.

Conveniently located just steps from the University of Maryland campus in College Park, MD (office above Jason's Deli and Starbucks, with additional office in Baltimore), students have the ability to intern 10-35 hours per week, while gaining valuable experience and contributing to the Maryland Sierra Club's many projects and campaigns.

What is the Sierra Club?

Since its founding in 1892, the Sierra Club has grown into the largest and most influential grassroots organization in America. Today, we are tackling the most important environmental issues such as climate change, clean energy, clean water and conservation.

Internships at the Sierra Club

We offer internships for fall, winter, spring, and summer semesters. They range in disciplines and all provide you with the opportunity to become an active and contributive member of this office.
