Yes, NPPC will pay your expenses to travel to Kansas City for the meeting.

Can I assume that you will be able to attend the meeting in Washington?
Let me know, then I'll inquire about Kansas City.

Rich, would industry be interested/able to foot the bill for one of us to attend the meeting in Kansas City? Our management has informed us

that we are short on travel funds.

NPPC meetings about the safe
agreement

Subject: Speaking to
harbor/monitoring

The National Pork Producers' Council would like someone from EPA to appear at two meetings it is planning to introduce the safe harbor/monitoring agreement to the pork producers who would probably be in the participant tier. The dates and times are:

February 20 (Thursday) at the Kansas City Airport Hilton, from 10:00 to 2:00.

February 24 (Monday) at the Grand Hyatt in Washington, D.C., from 10:00 to 2:00.

Could an appropriate person from EPA (presumably one or both of you) attend? The underlying purpose would be to help explain the benefits of participation in this program. We would of course need to coordinate our presentations.

Please let me know if you are available.

Susan, per your instructions, I had approached them about paying. I understand now that this was a big "no-no", and we are in fact paying for this trip. I feel compromised by this situation, and don't want us to be caught in this predicament in the future.
