

PRESIDENT BUSH: We Need New Energy to Set America Free

I **Imagine an America** where we are free to light and heat our homes with safer, cleaner wind or solar power, where our children are free from the air pollution that spews from cars and power plants and the asthma and global warming it causes. Imagine a future free from threats to drill our coasts and the wild lands left to us for safekeeping, precious places like the Arctic National Wildlife Refuge.

We don't have to imagine. We know how to end our dependence on oil and coal. We can free ourselves from dangerous nuclear power and the polluting industries of the past by investing now in 21st Century solutions.

PRESIDENT BUSH AND MEMBERS OF CONGRESS: Use modern technology to set us free. Put Americans to work building wind turbines, solar panels, hybrids and other energy-saving cars and buildings. And keep our soldiers safe, at home, instead of risking their lives in the oil fields. We don't need to sacrifice Americans' lives, health or lands to meet our nation's energy needs.
