# STOP PLASTIC POLLUTION

## *Virginia Bans Restaurant Plastics*

- Prepare for new state ban that requires restaurants to stop using Styrofoam/plastics (SP)
  - Replace Styrofoam/plastic products with reusable, washable ones – it saves money over time!
  - Or ask your supplier to recommend affordable eco-friendly alternatives
  - Browse sites like [www.webstaurantstore.com](http://www.webstaurantstore.com) which offer biodegradable products.
- Please ask if patrons need SP utensils, straws, or condiment packs. (Don't assume.)
- Encourage patrons to bring reusable containers for left-overs by offering a discount
