Systemic problems need systemic change
Tell county leaders you want action now!

- Prudent investments for our children's future
- Safeguards for our health and quality of life
- Transparent governance and public participation
- Decision-making informed by science and good sense
- Equity and inclusion for more just outcomes
- A just transition to clean, renewable energy
- Increased energy efficiency and reduced waste
- Smart growth and affordable, reliable, clean transportation options
- Nature-based solutions to reduce impacts of excess heat and extreme precipitation
- Responsible stewardship of our natural resources and agricultural lands
