

The River Prairie Group presents:

The Legislature, the Governor, the Sierra Club

Yes We Can! So we hope....

Because of recent US Environmental Protection Agency mandates, this year affords environmentalists one of the greatest opportunities to do something meaningful about Climate Collapse that have come in decades.

The Sierra Club has clean energy, invasive species and several other pressing environmental issues in its sites this year. Sierra Club's Springfield Representative Terri Treacy will discuss the bills the Sierra Club will lobby for this year, their prospects for passage, and the Sierra Club's plans to get the job done.

Come join us to find out what's going on.
