Dear Paula and Emma:

Thank you for your leadership in organizing the Chester County Clean Energy Open House Tour. I am sorry that I cannot be there with you in person, but please know that I wish you a successful event. One of the reasons that Bart and I love living in Pennsylvania's 6th district is this community's enduring commitment to protecting the environment and seeking creative, innovative solutions that move our economy forward.

Improving energy efficiency and increasing renewable energy sources are goals we can all share as we move towards a greener economy. As a member of Congress, I have supported legislation like the Climate Solutions Act and the 100% Clean Energy Economy Act, both of which set ambitious targets for greenhouse gas emission reduction and lay out paths to achieve these goals. Events like this demonstrate how all of us can contribute to the fight against climate change by making smart choices about our energy use, whether it's in our homes, businesses, schools, or even when we're out running errands.

I am grateful for your work and grateful to live in a community that prioritizes protecting our planet. Best wishes for a successful event!

Sincerely,

CHRISSEY HOULAHAN
Member of Congress
