

## Jan. 27: Energy Storage 101

Sierra Club General Meeting

7 p.m., Friday, January 27

via Zoom

For our January meeting, we're pleased to host Craig Lewis, [Executive Director of the Clean Coalition](#) and member of Sierra Club California's Energy/Climate Committee. Craig led the Clean Coalition's efforts to secure approvals for the first front-of-meter (FOM) energy storage project in Santa Barbara County and will be sharing his experience of that project, along with his thirty years of experience in policy and technology innovation, including the proliferation of solar and community microgrids.

[Click here](#) to register for the meeting and receive the Zoom link.
