

How to Download and Print Your America 250 Signs

First, make sure to **download** this PDF file to your computer. That will help ensure that you don't lose the file once you close this page.

If accessing this file on your **phone**, you can copy the URL of this page and email it to yourself. It is also possible to print directly from your phone.

Next, you can use your **printer at home** to print these in either color or black and white on regular printer paper – if you want, you can then decorate the signs and even glue them to cardstock or cardboard to make them heftier.

Alternatively, you can **print these from your local print shop or Staples**. You can bring them in on a flash drive or send the files to them on their website. This allows you to print larger versions of the signs or print on cardstock.
