Roster of Sierra Club Directors

Until 1922, nine Directors comprised the Board. In that year, the Board of Directors was enlarged to 15.

Directors were elected annually for one-year terms until 1956, after which they were elected for three-year terms (with those elected in 1956 staggering their terms in a selection by lot). Directors' terms begin in May and run for three full years, with Directors able to serve only two consecutive terms without taking one year off.
