

Join Us for No Denying Climate Change Town Hall!

August 14, 2026

Hi Friends!

We have started planning for the 2027 Legislative Session and soon will be offering some volunteer lobby training and issue training. In the meantime, we are engaging with members of Congress during the August recess and elevating the need for climate action. Please consider coming to the No Denying Climate Change Town Hall with Representative Yassamin Ansari on August 27th. See the details and register below.

See you then and thank you!

Sandy Bahr
Director, Sierra Club - Grand Canyon Chapter

If you have any questions, reach out to sandy.bahr@sierraclub.org.

The No Denying Climate Change Town Hall with Rep. Yassamin Ansari will focus on local impacts of climate change, including extreme heat, poor air quality, and energy affordability, sounding the alarm about the Trump administrations attacks on clean energy projects and climate science. Come prepared with questions and ready to learn.
