

**ARE YOU
IN THE
BLAST
ZONE?**

AT LEAST 15,128 PEOPLE
ARE IN THE BLAST ZONE
AND EVACUATION ZONE
FOR THIS PIPELINE.¹

ARE YOU ONE OF THEM?

Duke Energy wants to build the Atlantic Coast Pipeline to pump dirty, dangerous fracked gas from out of state through our communities. Here in our backyard, they want to build a massive facility called a compressor station that will dirty our air, trigger asthma attacks and make it harder to breathe.

Tell your state leaders to say no to Duke's dirty air by showing up at 6:00 p.m. on Nov. 15 at Garysburg Town Hall, 504 Old Highway Rd. in Garysburg.
