**Letter of Support for Commission Name Change**

Isaac Chikuma  
Chair, County Fish & Game Commission

Dear Chair Chikuma and commission members,

We understand that you will be considering a name change for your commission during your February meeting, with a proposed change from the County Fish and Game Advisory Commission to the County Fish and Wildlife Advisory Commission.

The Sierra Club Group would like to express our strong support for the change in name. We understand that names have historical and symbolic significance and congratulate you for taking the initiative to consider such a change that we feel will better reflect the context of your important work and recommendations to the county Board of Supervisors.

Thank you for considering our letter of support,

Sincerely,

Greg McPheeters  
Chair, Executive Committee
