Alisa Klaus,
Physical Planning & Construction,
UCSC

April 4th. 2018

Dear Ms. Klaus,

The Sierra Club has just become aware of the release of the Draft Environmental Impact Report for the Student Housing West Project. The DEIR document is 600 pages of detailed analysis of the environmental impacts of the project including impacts to the East Meadow lands. We aim to give the document careful examination and submit comments on behalf of our 4000 members in Santa Cruz County.

Our Executive Committee meets monthly and positions taken require majority vote. We feel that 45 days is inadequate for a response to such a lengthy document and project of this magnitude. This is to request an extension of time from the current 45 days to 60 days.

We hope that you will give this request due consideration.

A reply would be appreciated.

Respectfully submitted,

Gillian

Gillian Greensite, Chair
Sierra Club, Santa Cruz County Group
