

June 2022 SCLP and Sierra Club CA Endorsement List

Local Ballot Measures

Santa Clara Valley Water District Deceptive Term Limits Expansion Measure A: **NO** *The Sierra Club strongly opposes the Santa Clara Valley Water District Measure A on the June Primary ballot. Why? Because we think the adjective "deceptive" as used by most opponents is too mild. "Lying" is by far the better word and lying is a political practice that undermines democracy at its core, especially when deployed by a public agency. The wording of the Measure implies that it would "limit" the terms of its directors but it actually would increase the tenure from 3 terms to 4. That's lying, and voters should reward this display of contempt for their intelligence with an emphatic NO.*
