Spanish interpretation will be provided.

The City Council is considering adding **4 million square feet of new office space** in the Ravenswood Business District through a Specific Plan Update, a document that will allow a huge expansion equivalent to **NINE** Transamerica Pyramids.

If successful, walls of office buildings could be located right next to East Palo Alto's **sensitive shoreline** and the **Ravenswood Open Space Preserve**, and **traffic** could become even worse.

LET YOUR VOICE BE HEARD. YOUR CITY, YOUR CHOICE.

Traffic, displacement, and open space matter -- let's make sure City Council knows it.
