Citizens' Clean Water Summit on 11/16/13: 253 activists, 121 organizations

The *Floridians' Clean Water Declaration*, the cornerstone of the campaign, is the “bottom line” for protecting Florida’s waters, wildlife and the health and livelihoods of Floridians.

The *Floridians' Clean Water Declaration* is a positive vision drafted to inspire people to work together to:

- create a new water ethic;
- find solutions to Florida’s water quality and quantity problems; and
- **send a clear message to our water managers that the people of Florida demand clean water.**
