SIERRA CLUB ENDORSEMENTS

Conservation Group Selects Environmental Champions for Kansas Legislature

The Kansas Chapter of the Sierra Club is pleased to announce its endorsement of candidates for the Kansas legislature. In releasing these endorsements, chapter political chair Mimi Moffat said, "I'm excited by our mix of seasoned legislators and newcomers to the political scene, all of whom have shown their commitment to working on the array of environmental challenges facing our state. They've shown their interest in renewable energy, eliminating the sales tax on food at farmer's markets, and protecting the right of local control over the proliferation of plastic bags and the spread of concentrated animal feeding operations."

"It's tempting to highlight individual candidates, but that would take a book," Moffat continued. "From across our state, we have grandparents concerned about future generations, climate activists focused on wind and solar energy, farmers committed to sustainable agriculture, and teachers who are sharing their commitment to science with our future leaders. All of them recognize our global climate crisis, and we are confident that their diverse backgrounds and professional qualifications will enable our legislature to adopt smart policies to help our economy and protect our natural environment."

The Sierra Club is the most enduring and influential grassroots environmental organization in the United States, with 3.8 million members and supporters.

Here is the complete list of endorsements so far. You can find the Sierra Club endorsed candidates for your address [here](#) and find other information about voting. The list gets updated as endorsements are processed

Office	District	Party	Last Name	First Name
