

The Sierra Club has an all-volunteer, Grassroots Network team focused on supporting and linking climate activists across the country. This team, the Climate Emergency Mobilization (CEM) Team, is working to build a nationwide network of climate activists. The CEM team works to collect examples of local climate actions and share these examples with climate activists in other locations. The team also supports local climate activists with a variety of resources to help stimulate and kick-start advocacy and support for local climate actions. If you are interested in learning more, please send an email to [Kevin@hudsoncenterNY.org](mailto:Kevin@hudsoncenterNY.org) to be added to the CEM team discussion listserv or join our CEM team at this link: [bit.ly/SierraClubCEM](https://bit.ly/SierraClubCEM) by registering with the Grassroots Network and then "joining" our CEM team.
