SCOTUS**

Speak Out To #StopKavanaugh

Brett Kavanaugh, Donald Trump's nominee for Supreme Court, has shown in decision after decision that he supports the right of corporations to pollute over the right of the public to breathe clean air, drink clean water, and live in safe communities. If Kavanaugh is confirmed, a more extreme Supreme Court will threaten our nation's most essential public health and environmental laws like the Clean Air Act, the Clean Water Act, and the Endangered Species Act. He is a threat to the health of women, our communities, our democracy, and our planet. Massachusetts [Senator Markey](#) and [Senator Warren](#) have both vocally opposed this nomination. To contact their offices and thank them, **text SCOTUS to 69866 OR call 1-615-823-8795.**
