

April 2: A Day of Climate Action!

Virginia citizens and organizations concerned about climate change are joining together to hold a momentous Day of Action on April 2, 2016, calling on Governor McAuliffe to cut carbon now. The Virginia People's Climate Movement is gearing up for rallies and events across the state – and we need everyone to be part of the action!

Northern Virginia is [taking action in solidarity with our neighbors in Richmond](#), who will be delivering thousands of petitions to Governor McAuliffe. We are asking the Governor to keep his climate action commitments by developing a bold Clean Power Plan that reduces carbon pollution from all of Virginia's dirty power plants. At the same time, we will be rallying in Alexandria, Leesburg, Charlottesville, and communities all over the state, so that this message reverberates across the Commonwealth and cannot be ignored.

Here's how you can get involved:

- 1) [Sign up now to participate and demonstrate](#) to the Governor that Virginians from all over the Commonwealth are committed to climate action. We want as many local, distributed actions as possible to take place. These events will galvanize local communities, organizations and activists, attract media attention and show the power of Virginia's Climate Movement on April 2.
- 2) [Spread the word](#): Invite your friends and neighbors and share this event on your social media pages.
- 3) Join the Rally Planning Team and take on roles like recruitment, logistics, speaker outreach, social media and much more! We have planning calls weekly on Fridays and you're welcome to participate. Contact Kelsey Crane at [\(703\)438-6246](tel:7034386246) or kelsey.crane@sierraclub.org for more information about how to help in the planning.
- 4) [Volunteer for various important roles the day of the rally](#).

Can't wait to see you there on April 2!
