Coming Up:

Online Screening: Damon Gameau's Film: **2040**

Thursday, June 2 | 7:00pm
Online via Zoom

Robert Lunz Group is proud to partner with Together Films to screen the film *2040* at its June membership meeting.

Motivated by his 4-year-old daughter and concern for the planet she will inherit, Damon Gameau, Australian award-winning director (*That Sugar Film*, 2015) and actor, embarks on a global journey to meet innovators and changemakers to discover what the future of the planet could look like by the year 2040 if we embraced the best solutions already available to us, and shifted them rapidly into the mainstream.

Guided by the voices of 100 child interviewees aged between 6 and 11 who describe the kind of world they would like to see by the year 2040, Damon draws on the best minds from around the world to focus on climate, economics, technology, civil society, education, agriculture and sustainability to conjure a positive portrait of what 'could be' instead of the current dystopian future we are so often presented.
