

Signatories to the Letter

These are the legislators who signed a letter sent on April 21, 2020, asking the California Air Resources Board to delay two regulations that have been years in the making and would reduce toxic diesel pollution in California, particularly at and near the ports. **Call or email your favorites on the list and tell them that you want diesel pollution reduced and that they shouldn't have signed the letter demanding a delay in the June vote for the diesel cleanup rules.** If you call and encounter a recorded answer, leave a message.
