

Sierra Club California 2022 Legislative Priority List (April 11, 2022)

Each year, Sierra Club California staff and volunteer leaders work together to analyze and determine Club positions on hundreds of bills at the legislature. From among those on which we take a position, a number rise to the top as priority bills that deserve special attention. We encourage our members to bring these bills to the attention of their legislators.

Below is the Sierra Club California list of priority bills in 2022 with our position and each bill's status as of the date above. This list is updated periodically. We cover and take positions on dozens of bills. This priority list is *not* a complete list of all the bills we take a position on or lobby. Bills may be added or removed from this list at any time depending on the circumstances and context of the legislative process.

Each bill is linked to its page on the California Legislative Information website (<http://leginfo.legislature.ca.gov>). Click on the links for the latest status on bills and their location in the legislative process.

The priority bills are grouped below by topic area and listed within those by status and house in numerical order. Bills introduced by Assembly members begin with AB and bills introduced by Senators begin with SB. Those bills highlighted in **gray** have failed to pass a key committee or house and are therefore no longer moving. Those bills that we support and the governor signed to become law have been highlighted in **green**. Those highlighted in **red** are bills we supported that have been vetoed by the governor. Those bills that we opposed and that the governor signed have been highlighted in **orange**. Those highlighted in **yellow** are bills that we opposed and have been vetoed by the governor. Constitutional amendments that pass both houses go straight to the ballot and those are highlighted in **light green**.

Reigning in the Fossil Fuel Industry

SB 1173 (Gonzales) Advancing Fossil Fuel Divestment - Support

This bill would prohibit the California Public Employees Retirement System (CalPERS) and the California State Teachers' Retirement System (CalSTRS) from investing in fossil fuel companies, and require that they divest any current investments by 2027.

Passed Senate Committee on Labor, Public Employment, and Retirement. Moves to Senate Judiciary Committee.

SB 1314 (Limón) Addressing Harmful Practices - Support

This bill would address the fossil fuel industries harmful practices by prohibiting enhanced oil recovery using captured carbon.

Set for hearing in Senate Committee on Natural Resources and Water.

SB 1486 (Stern) Closing Aliso Canyon - Support

This bill would move the state away from methane gas plants by requiring the closure of Aliso Canyon gas plant by 2027 and reinstate a moratorium on the use of Aliso Canyon, returning it to an asset of last resort.

Set for hearing in Senate Committee on Energy, Utilities and Communications.

SB 1423 (Stern) Closing Loopholes in the Coastal Act - Support

This bill will close an existing loophole in the California Coastal Act for oil and gas operations, and clarify that new oil wells and fossil fuel infrastructure in the Coastal Zone must be reviewed by the Coastal Commission consistent with all other development projects.

Set for hearing in Senate Natural Resources and Water Committee.

Defending Environmental Review

AB 267 (Valladares) CEQA Exemption Extension for Tree Removal - Oppose

This bill would extend a California Environmental Quality Act exemption for wildfire-related, landscape-scale projects (including tree removal projects) on federal lands which have undergone weaker environmental review under the National Environmental Protection Act.

Passed Assembly. Moves to Senate.

Advancing Zero-Emission Electricity

AB 1078 (Patterson) Rooftop Solar Exemption - Oppose

This bill will lead to less resilient communities and delay California's work towards 100% clean energy by exempting homes being rebuilt after natural disasters from the roof-top solar requirement.

Passed Assembly. Moves to Senate.

SB 881 (Min) Load-serving entities: integrated resource plans. - Support

This bill will clarify that in addition to planning, the CPUC's IRP process should also ensure that utilities follow through with their IRP commitments. This bill would provide greater clarity that the CPUC shall require utilities to undertake sufficient procurement to meet the electricity sector's global warming emissions reduction target. This bill will also ensure that if utilities fail to meet their IRP requirements, then the CPUC can assess penalties and authorize another entity to satisfy unmet procurement needs.

Passed the Senate Committee on Energy, Utilities, and Communication. Moves to Senate Committee on Appropriations.

Promoting Climate Change Mitigation and Resilience

SB 260 (Wiener) Climate Corporate Accountability Act - Support

This bill will require publicly traded corporations with annual revenues in excess of \$1 billion that do business in California to publicly disclose their greenhouse gas emissions from the prior calendar year. The bill would also require the Air Resources Board to develop and adopt regulations requiring those large corporations to set emissions targets based on the entity's emissions.

Passed Senate. Moves to Assembly.

SB 1026 (Wieckowski) Energy Efficiency Transparency for Tenants - Support

This bill would require landlords to disclose the energy efficiency of units to potential renters. It would also allow the renter to request the annual cost of utilities from the unit's electricity provider.

Passed Senate Judiciary Committee. Moves to Senate Energy, Utilities and Communications.

SB 1393 (Archuleta) Restricting Building Electrification Efforts - Oppose

This bill will inhibit cities' ability to reduce greenhouse gas and NOx emissions by adding burdensome requirements for the adoption of local building codes that require the replacement of fossil fueled appliances with zero emission electric ones.

Passed Senate Committee on Energy, Utilities, and Communications. Moves to Senate Committee on Governance and Finance.

SB 1078 (Allen) Financing Sea Level Rise Resilience - Support

This bill seeks to address climate crisis coastal impacts by establishing a revolving fund to provide local governments with a new and badly needed financing option to address sea level rise. This bill specifically focuses on low-income communities, communities of color, tribal communities, and other disproportionately affected communities and populations who bear the brunt of impacts from climate change as a priority.

Passed Senate Natural Resources and Water Committee. Moves to Senate Appropriations Committee.

Furthering Clean Transportation

[SB 1010 \(Skinner\)](#) Zero Emission Public Vehicles - Support

This bill will reduce carbon and criteria emissions from California's public fleets by moving the state's light-duty fleet to 50% of new purchases being ZEVs by July 1, 2024, and reach 100% of new purchases by July 1, 2026. The bill will also require at least 50 percent of new heavy-duty vehicles (over 19,000 pounds) purchased by the State to be zero-emission by the end of 2024, growing to 100 percent of new purchases by the end of 2027.

Set for hearing in Senate Committee on Environmental Quality.

[AB 1919 \(Holden\)](#) Youth Transit Passes

This bill will increase the use of transit, decrease vehicle miles traveled, improve public health, and decrease greenhouse gas emissions by creating a program that would provide free transit passes for all Californians under 25 years of age.

Passed Assembly Committee on Transportation. Moves to Assembly Appropriations Committee.

Providing Clean and Safe Water for All

[AB 2108 \(Rivas\)](#) Ensuring Environmental Justice in Water Policy - Support

This bill would require environmental justice and/or tribal community representation on each Water Board, and would establish a community capacity building program at the State Water Board to meaningfully involve potentially impacted communities for major projects and appropriate minor projects in underrepresented or identified vulnerable or disadvantaged communities.

Passed Assembly Environmental Safety and Toxic Materials Committee. Moves to Assembly Water, Parks and Wildlife Committee.

[AB 2201 \(Bennett\)](#) Community Drinking Water Protection Act - Support

This bill would amend the Sustainable Groundwater Management Act to require Groundwater Sustainability Agencies in critically overdrafted basins to achieve sustainability. It requires GSAs to establish a permitting process for new groundwater extraction facilities, and prohibit extraction in critically overdrafted basins without a permit.

Set for hearing in Assembly Water, Parks and Wildlife Committee

[SB 222 \(Dodd\)](#) Water Ratepayer Assistance Program - Support

This bill would establish a long-needed framework for a statewide water affordability assistance program.

Passed Assembly Utilities and Energy Committee. Passed Assembly Appropriations Committee. Moves to Assembly Floor.

[SB 890 \(Nielsen\)](#) Giveaway for Water Storage Projects - Oppose

This bill would promote the public funding of environmentally destructive water projects by establishing putting taxpayer dollars into a state fund for these projects.

Died in Senate Natural Resources and Water Committee

[SB 1219 \(Hurtado\)](#) Promoting Water Mismanagement - Oppose

This bill would create inherent conflicts of interest over water management, undermine public participation in decisions over sustainable water management, and threaten progress on safe and affordable drinking water by dissolving the State Water Resources Control Board and transferring its authority to the Department of Water Resources.

Passed Senate Natural Resources and Water Committee with amendments. Moves to Senate Committee on Environmental Quality.

Advancing Equity, Education, and Social Justice**[AB 1939 \(Rivas\)](#) Promoting Climate Literacy - Support**

This bill would advance climate literacy by making climate change a course requirement and graduation requirement for our future leaders.

Passed the Assembly Committee on Education. Moves to Assembly Appropriations Committee.

[AB 2419 \(Bryan\)](#) Ensuring Equity in Investments - Support

This bill would ensure that federal climate and infrastructure investments will advance California's goals to promote equity, environmental justice, and a high-road economy through targeted investments to disadvantaged and low-income communities.

Passed the Assembly Committee on Natural Resources. Moves to Assembly Committee on Environmental Safety and Toxic Materials

[AB 2053 \(Lee\)](#) The Social Housing Act - Support

This bill would address California's affordable housing crisis by advancing sustainably-built social housing using a mixed-income model.

Moves to Assembly Committee on Housing and Community Development.

Reducing Toxics Exposure**[AB 1817 \(Ting\)](#) - Reducing PFAS Exposure - Support**

This bill would address PFAS exposure by phasing out toxic per- and polyfluoroalkyl substances (PFAS) in clothes and textiles sold in California.

Passed Assembly Committee on Environmental Safety and Toxic Materials. Moves to Assembly Floor.

[AB 2146 \(Bauer Kahan\)](#) Addressing Pesticide Use - Support

This bill would fill an existing void in the regulation of neonicotinoid pesticides (neonics) by banning non-agricultural uses of the top five neonics.

Passed Assembly Committee on Environmental Safety and Toxic Materials. Moves to Assembly Appropriations Committee.

Cutting Waste

AB 478 (Ting) Thermoform Minimum Content- Support

This bill would set a minimum recycled content requirements for plastic thermoform food containers (i.e. berry boxes) and establish minimum recycled content using a phased approach – starting at 10% and eventually reaching 30% and set penalties for manufacturers that do not meet the requirements.

Moves to Senate Appropriations Committee.

AB 1724 Combating Microfiber Pollution

This bill would require all new and state-owned washing machines to require microfiber filters on or before 2024. This bill will help curb microfiber pollution, one of the most common types of microplastic pollution globally.

Moves to Assembly Committee on Environmental Safety and Toxic Materials.

AB 1857 (Garcia) Ends Diversion Credits for Incineration - Support

This bill will remove the diversion credit for municipal solid waste incinerators and redefine incineration as disposal. This will disincentivize the use of dirty incinerators and incentivize composting and recycling.

Passed the Assembly Committee on Natural Resources. Moves to the Assembly Committee on Appropriations.

SB 54 (Allen, Wiener, Gonzalez, Ting, Kamlager, Stern, Muratsuchi) Plastic Pollution Producer Responsibility Act - Support

This bill requires producers to reduce disposables by right-sizing packaging and shifting to reusables where possible. It also sets ambitious recycling and composting requirements for the material that does enter the state, requiring all disposable packaging and food serviceware to be truly recyclable or compostable by 2032.

Passed Senate. Moves to Assembly.
