Each year, Sierra Club California staff and volunteer leaders work together to analyze and determine Club positions on hundreds of bills at the legislature. From among those on which we take a position, a number rise to the top as priority bills that deserve special attention. We encourage our members to bring these bills to the attention of their legislators.

Below is the Sierra Club California list of priority bills in 2023 with our position and each bill’s status as of the date above. This list is updated periodically. We cover and take positions on dozens of bills. This priority list is not a complete list of all the bills we take a position on or lobby. Bills may be added or removed from this list at any time depending on the circumstances and context of the legislative process.

The priority bills are grouped below by topic area and listed within those by status and house in numerical order. Bills introduced by Assembly members begin with AB and bills introduced by Senators begin with SB. Each bill is linked to its page on the California Legislative Information website (http://leginfo.legislature.ca.gov). Click on the links for the latest status on bills and their location in the legislative process.

As the session progresses, we will update this list using a color-coded system. Those bills highlighted in gray have failed to pass a key committee or house and are therefore no longer moving. Those bills that we support and the governor signed to become law have been highlighted in green. Those highlighted in red are bills we supported that have been vetoed by the governor. Those bills that we opposed and that the governor signed have been highlighted in orange. Those highlighted in yellow are bills that we opposed and have been vetoed by the governor. Constitutional amendments that pass both houses go straight to the ballot and those are highlighted in light green.
Reigning in the Fossil Fuel Industry

**AB 324 (Pacheco)** Propping Up Polluting Hydrogen - Oppose
This bill prematurely locks California into a purchasing agreement with hydrogen production facilities without considering the pollution impacts of hydrogen produced from nonrenewable or the appropriate end uses.

**AB 698 (Essayli)** Keeping Fossil Fuel Infrastructure Online - Oppose
This bill prevents local governments and state agencies from prohibiting the use of polluting gas stoves in residential and non-residential buildings.

**AB 1167 (Carrillo)** Making Dirty Polluters Pay their Fair Share - Support
This bill addresses CA's orphan well crisis by requiring operators that acquire the right to operate an oil well or production facility through purchase, transfer, or other disposition to cover the full remediation costs associated with plugging and abandonment and site restoration determined by the State Oil and Gas Supervisor.

**SB 252 (Gonzalez)** Advancing Fossil Fuel Divestment - Support
This bill would prohibit the California Public Employees Retirement System (CalPERS) and the California State Teachers’ Retirement System (CalSTRS) from investing in fossil fuel companies, and require that they divest any current investments by 2030.

**SB 674 (Gonzalez)** Monitoring Air Pollution in Environmental Justice Communities - Support
This bill will contribute to refinery-related emission reductions in environmental justice communities by requiring fenceline (perimeter) air quality monitoring for additional refinery-related operations and the installation of a refinery-related community air monitoring system near overburdened communities.

Defending Environmental Review and Protecting Natural Resources

**AB 57 (Kalra)** Growing Urban Pocket Forests - Support
This bill would create a pilot program to establish pocket forests in urban areas, with a focus on disadvantaged and park-poor communities, to increase access to nature and advance California’s 30x30 goals.

**AB 66 (Mathis)** Shortcutting Permits for New Reservoirs - Oppose
This bill would undermine fundamental planning and environmental review requirements for new dams and reservoir projects by requiring CNRA to approve all permits for water storage projects within 180 days of receipt.

**SB 438 (Caballero)** Protecting Californians from Irresponsible CCUS Buildout - Oppose
This bill weakens the state’s guardrails surrounding carbon, capture, use, and storage (CCUS) by adding potential loopholes for prohibited Enhanced Oil Recovery (EOR) and permitting CCUS projects on lands protected by state conservation grants.
SB 861 (Dahle) Steamrolling CEQA for New Dams - Oppose
This bill would weaken the California Environmental Quality Act’s ability to prevent the development of water infrastructure with negative impacts on the environment by requiring proceedings brought against the environmental impact report prepared for water infrastructure projects to be resolved by courts within 270 days of filing.

Promoting Climate Change Mitigation and Resilience

SB 12 (Stern)/AB 9 (Muratsuchi) Increasing Near-Term Climate Ambition - Support
This bill would reduce greenhouse gas emissions in the near term by increasing the state’s GHG reduction target from 40% below 1990 levels in 2030 to 55%.

SB 253 (Wiener) Increasing Corporate Transparency Surrounding Life-Cycle Greenhouse Gas Emissions - Support
This bill will require publicly traded corporations with annual revenues in excess of $1 billion that do business in California to publicly disclose their greenhouse gas emissions from the prior calendar year. The bill would also require the Air Resources Board to develop and adopt regulations requiring those large corporations to set emissions targets based on the entity’s emissions.

SB 261 (Stern) Disclosing Climate-Related Financial Risk - Support
This bill will help create a climate-resilient workforce and protect the state’s economy by mandating corporations disclose climate-related financial risks associated with corporate operations, employee health and safety, capital investments, and supply chains.

SB 499 (Menjivar) Advancing Extreme Heat Mitigation Measures in Schools - Support
This bill will protect children from high temperatures in schools and reduce urban heat islands by requiring school sites to replace heat-absorbing infrastructure with cool pavement technologies, including natural grass, shrubs, trees, wood chips, and other natural systems.

Furthering Clean Transportation

AB 610 (Holden) Expanding Youth Transit Access - Support
This bill will increase the use of transit, decrease vehicle miles traveled, improve public health, and decrease greenhouse gas emissions by creating a program that would provide free transit passes for all Californians under 18 years of age.

AB 6 (Friedman) Creating New Transportation Planning Emission Targets - Support
This bill would set 2035 and 2045 greenhouse gas (GHG) emission targets for regional transportation agencies’ sustainability plans and would allow the state to tailor regional plans to meet statewide GHG emission goals by extending the review period of these plans to 180 days.
**AB 1372 (Alvarez) Undermining Zero Emission Truck Regulations - Oppose**
This bill would prevent the California Air Resources Board from enforcing the Advanced Clean Truck Regulation, halting the transition to zero-emission trucks weighing over 8,500 pounds and operating at land ports of entry along the California-Mexico border.

**Providing Clean and Safe Water for All**

**SB 3 (Dodd) Reinforcing the Human Right to Water - Support**
This bill would strengthen the human right to water for individuals living in smaller communities by expanding water shutoff protections to community water systems that serve as few as 25 people.

**SB 745 (Cortese) Promoting Drought-Resistant Buildings - Support**
This bill would advance water efficiency and increase California’s resiliency by requiring new buildings to use 25 percent less potable water and be designed to capture greywater for non-potable building and landscaping uses.

**SB 23 (Caballero) Avoiding Permitting Requirements for Water Infrastructure - Oppose**
This bill would limit the state’s ability to prevent infrastructure development that is harmful to the environment by allowing developers to rush the approval process of water infrastructure projects through the State Water Resources Control Board.

**Reducing Toxics and Pesticides Exposure**

**AB 363 (Bauer-Kahan) Addressing Pesticide Use - Support**
This bill would expand upon existing agricultural regulations on the use of neonicotinoids, a class of insecticides, to add safeguards for their use in outdoor, non-agricultural settings due to their harmful effects on pollinating insects, aquatic ecosystems, and human health.

**AB 246 (Papan) Removing Toxicants from Feminine Hygiene Products - Support**
This bill would prohibit the manufacturing and selling of any menstrual products that contain regulated PFAS, also requiring that the least toxic alternative be used when removing regulated PFAS in menstrual products with an issued certificate of compliance from the manufacturer for sale or distribution.

**AB 496 (Friedman) Protecting Cosmetic Consumers from Toxic Chemicals - Support**
This bill will protect cosmetic consumers from toxic chemicals by adding 26 chemicals to the list of chemicals California has banned in cosmetics.

**AB 652 (Lee) Environmental Justice Oversight of Pesticides - Support**
This bill would require the Department of Pesticide Regulation (DPR) to establish a Department of Pesticide Regulation Environmental Justice Advisory Committee to increase transparency and accountability on ways to integrate environmental justice considerations for communities with the most significant exposure to pesticides.
**Cutting Waste**

**AB 1628 (McKinnor)** Reducing Microfiber Pollution - Support
This bill would require that all new washing machines sold for residential, commercial, and state use contain a microfiber filtration system.

**AB 1290 (Luz Rivas)** Protecting Californians from Toxic Chemicals - Support
This bill would prohibit the state from manufacturing and selling bottles and plastic packaging that contain specified health-harming chemicals.

**AB 1347 (Ting)** Reducing Paper Receipt Waste - Support
This bill would require businesses to provide customers the option of no receipt, e-receipt, or paper receipt during a transaction. This bill also requires receipts to be BPA/BPS free, and that receipt lengths are not longer than necessary.

**SB 378 (Gonzales)** Keeping State Parks and Beaches Clean - Support
This bill would protect our scenic oceans, coastline, and recreational protected areas by prohibiting styrofoam containers and coolers from being brought in state parks and beaches.

**Advancing A Just Society**

**AB 1 (McKinnor)** Promoting Healthy Working Conditions - Support
This bill would allow legislative staff the choice to join a union and collectively bargain for wages, benefits and working conditions.

**AB 421 (Bryan)** Reforming California’s Referendum Process - Support
This bill will put the referendum process back in the hands of Californians by requiring paid signature gatherers to disclose their funding sources, establishing a training program for signature gathering conduct, and requiring at least 10 percent of signatures needed to qualify a referendum originate from non-paid signature gatherers.

**AB 1000 (Reyes)** Protecting Communities from Polluting Land Uses - Support
This bill will establish a 1,000 foot setback on warehouse or logistics projects from sensitive receptors such as neighborhoods, schools, healthcare facilities, and playgrounds. The bill would allow these projects to be sited 750 feet away from sensitive receptors if the project meets a set of environmental and public health standards.
