V1. As you may know, Congress is considering new legislation to provide paid family and medical leave, establish a universal Pre-K program, expand Medicare coverage for seniors to include dental, vision, and hearing coverage, lower health care costs by allowing Medicare to negotiate lower drug prices, and address climate change by creating incentives to move the country to clean energy like wind and solar. Q14X. [N SIZE = 673] As you may know, some people in Congress have proposed cutting the size of this legislation from \$3.5 trillion to \$2 trillion by ELIMINATING some of the proposals to expand Medicare benefits to include dental, hearing, and vision; upgrade the VA; help Americans deal with the cost of childcare, long-term care, and health care; encourage clean energy; and address climate change.

| | | |
|-------------|---------------------------|-----|
| | More likely | 17% |
| | Less likely | 44 |
| | No difference | 36 |
| VOL: | (Don't know/Refused)..... | 4 |

If Congress were to cut the size of this legislation by ELIMINATING these proposals, would you be more likely to support the legislation, less likely to support the legislation, or would it make no difference to how much you support the legislation?

Q14. [IF SUPPORT] Thinking about that last question in a different way, which of the following statements comes closer to your view, even if neither is exactly right:

| | | |
|-------------|--|-----|
| | Congress should pass the full, \$3.5 trillion plan that includes the proposals to expand Medicare benefits to include dental, hearing, and vision; upgrade the VA; help Americans deal with the cost of childcare, long-term care, and health care; encourage clean energy; and address climate change. | 76% |
| | Congress should pass a smaller \$2 trillion plan WITHOUT some of the proposals to expand Medicare benefits to include dental, hearing, and vision; upgrade the VA; help Americans deal with the cost of childcare, long-term care, and health care; encourage clean energy; and address climate change. | 19 |
| VOL: | (Don't know/Refused)..... | 4 |

Q15. [IF OPPOSE] Thinking about that last question in a different way, which of the following statements comes closer to your view, even if neither is exactly right:

| | | |
|-------------|--|-----|
| | Congress should pass a smaller \$2 trillion plan WITHOUT some of the proposals to expand Medicare benefits to include dental, hearing, and vision; upgrade the VA; help Americans deal with the cost of childcare, long-term care, and health care; encourage clean energy; and address climate change. | 25% |
| | Congress should NOT pass the proposed legislation at all and focus on other priorities instead..... | 68 |
| VOL: | (Don't know/Refused)..... | 7 |

Thinking again about the full \$3.5 trillion plan, below are some statements from supporters and opponents of the proposed legislation:

Supporters of the plan say that the pandemic has cost millions of people their livelihoods and left families struggling with the rising prices. This plan will help rebuild an economy that works better for regular Americans while creating tens of millions of good-paying jobs, preventing the worst impacts of climate change, and lowering prices for prescription drugs, health insurance, and electricity. And it's paid for by making sure big corporations and the wealthy pay their fair share, so it won't add a penny to the debt or raise taxes on small businesses or families making less than four hundred thousand dollars.

Opponents of the plan say that Joe Biden, Nancy Pelosi, Alexandria Ocasio-Cortez, and the Democrats have already spent six trillion dollars on COVID recovery, stimulus, and other social programs which has led to rising inflation and record price increases for working families. This plan to spend an additional \$3.5 trillion on a liberal wish list of wasteful social welfare programs will make inflation even worse while raising taxes on working families and small businesses and leaving our kids and grandkids even further in debt to countries like China.

v3. One final time, after hearing these statements, do you support or oppose this legislation to provide paid family and medical leave, establish a universal Pre-K program, expand Medicare coverage for seniors to include dental, vision, and hearing coverage, lower health care costs by allowing Medicare to negotiate lower drug prices, and address climate change by creating incentives to move the country to clean energy like wind and solar? **[IF SUPPORT]** And would you strongly support or just somewhat support this legislation? **[IF OPPOSE]** And would you strongly oppose or just somewhat oppose this legislation?

| | OPPOSE (NET)..... | 33 |

Q16. As you may know, the filibuster is a process in the U.S. Senate that allows a minority of U.S. senators to block legislation that a majority of senators support. Some people have proposed reforming the filibuster to allow the Senate to pass legislation that would protect American citizens' right to vote via a simple majority vote.

Just based on what you know, would you support or oppose reforming the filibuster to allow the Senate to pass such legislation via a simple majority vote? **[IF SUPPORT]** And would you strongly support or just somewhat support this? **[IF OPPOSE]** And would you strongly oppose or just somewhat oppose this?
