## RAIL Meeting - 5/21

The RAIL Committee advocates for transportation options, such as mass-transit and biking, and transit-oriented development in Georgia. Transportation is a huge source of air pollution due to carbon emissions and traveling by car should be just one of many transportation options available to Georgians. We support funding for mass transit options and oppose bloated road projects. We encourage sustainable, walkable community development for a better quality of life in Georgia.

## Hands Across the Sand 2018

Join us as we call for the President to maintain the Paris Climate Accord, say NO to offshore drilling, the KXL and other tar sands pipelines, hydraulic fracking, seismic air gun blasting, and call on local and state leaders to protect our communities by rejecting projects that expand the extraction and use of fossil fuels — and instead accelerate the shift to clean, renewable energy.

## Join us in Savannah for an Art Auction

Please join us in the heart of Savannah at the Savannah International Trade & Convention Center for an evening of local art benefitting the Georgia Sierra Club.

Through the generous support of artists from Savannah, LaGrange, and other areas of Georgia, we will be auctioning various pieces through silent bids. Mediums include paintings, prints, sculpture, jewelry, and much more. We will also have a presentation featuring the campaigns and programs the Georgia Chapter has been committed to in 2018 and what is to come in the following years. We will also be joined by the Savannah band **Towering Pines**, who will play cover versions of bands like Tom Petty & the Heartbreakers, the Rolling Stones, as well as some of their own original music!

We look forward to seeing you!
