SIERRA CLUB ENDorses SENATOR CHRIS COONS
Nation’s Largest Grassroots Environmental Group Praises Work to Protect Delaware’s Environment

The Delaware Chapter of the Sierra Club today announced its endorsement of Senator Chris Coons in the 2020 election.

"We are pleased to announce that the Sierra Club officially endorses Senator Coons for reelection," said Heather Connell, Chapter Political Committee Chair. "We are deeply grateful to Senator Coons for his support for the Clean Power Plan and his work to create a Senate Climate Solutions Caucus."

Given the current administration’s continued threats to our clean air and water and public lands, it is critical to elect environmental champions like Senator Coons. He has consistently supported clean energy, strengthening environmental measures and working to hold the Trump administration accountable for its constant efforts to undermine protections for our air, water, and health.

Along with the endorsement, the Sierra Club will lend its volunteer strength to Senator Coons’ campaign.

"We pledge to do all we can to help ensure Senator Coons is reelected," said Sherri Evans-Stanton, Chapter Director. "We will broadcast our endorsement and communicate with our members and supporters to encourage them to do whatever possible to ensure his reelection. Additionally, we will speak to our partners and the public as often as possible about his exemplary environmental record. We look forward to a victory for Senator Coons on election night and for his continued leadership to fight for the environment as Delaware’s U.S. Senator."

###

About the Sierra Club:
The Sierra Club is America’s largest and most influential grassroots environmental organization, with more than 3.8 million members and supporters. In addition to helping people from all backgrounds explore nature and our outdoor heritage, the Sierra Club works to promote clean energy, safeguard the health of our communities, protect wildlife, and preserve our remaining wild places through grassroots activism, public education, lobbying, and legal action.
