Sierra Club California 2022 Legislative Priority List (June 17, 2022)

Each year, Sierra Club California staff and volunteer leaders work together to analyze and determine Club positions on hundreds of bills at the legislature. From among those on which we take a position, a number rise to the top as priority bills that deserve special attention. We encourage our members to bring these bills to the attention of their legislators.

Below is the Sierra Club California list of priority bills in 2022 with our position and each bill's status as of the date above. This list is updated periodically. We cover and take positions on dozens of bills. This priority list is not a complete list of all the bills we take a position on or lobby. Bills may be added or removed from this list at any time depending on the circumstances and context of the legislative process.

Each bill is linked to its page on the California Legislative Information website (http://leginfo.legislature.ca.gov). Click on the links for the latest status on bills and their location in the legislative process.

The priority bills are grouped below by topic area and listed within those by status and house in numerical order. Bills introduced by Assembly members begin with AB and bills introduced by Senators begin with SB. Those bills highlighted in gray have failed to pass a key committee or house and are therefore no longer moving. Those bills that we support and the governor signed to become law have been highlighted in green. Those highlighted in red are bills we supported that have been vetoed by the governor. Those bills that we opposed and that the governor signed have been highlighted in orange. Those highlighted in yellow are bills that we opposed and have been vetoed by the governor. Constitutional amendments that pass both houses go straight to the ballot and those are highlighted in light green.
Reigning in the Fossil Fuel Industry

**SB 1173 (Gonzalez) Advancing Fossil Fuel Divestment - Support**
This bill would prohibit the California Public Employees Retirement System (CalPERS) and the California State Teachers’ Retirement System (CalSTRS) from investing in fossil fuel companies, and require that they divest any current investments by 2030.
Passed Senate. Moves to Assembly Committee on Public Employment and Retirement.

**SB 1314 (Limón) Addressing Harmful Practices - Support**
This bill would address the fossil fuel industries harmful practices by prohibiting enhanced oil recovery using captured carbon.
Passed Senate. Moves to the Assembly Committee on Natural Resources.

**SB 1423 (Stern) Closing Loopholes in the Coastal Act - Support**
This bill will close an existing loophole in the California Coastal Act for oil and gas operations, and clarify that new oil wells and fossil fuel infrastructure in the Coastal Zone must be reviewed by the Coastal Commission consistent with all other development projects.
Held in the Senate Appropriations Committee.

Defending Environmental Review

**AB 267 (Valladares) CEQA Exemption Extension for Tree Removal - Oppose**
This bill would extend a California Environmental Quality Act exemption for wildfire-related, landscape-scale projects (including tree removal projects) on federal lands which have undergone weaker environmental review under the National Environmental Protection Act.
Passed the Senate Natural Resources and Water Committee. Moves to the Senate Committee on Environmental Quality.

Advancing Zero-Emission Electricity

**AB 1078 (Patterson) Rooftop Solar Exemption - Oppose**
This bill will lead to less resilient communities and delay California's work towards 100% clean energy by exempting homes being rebuilt after natural disasters from the roof-top solar requirement.
Passed the Senate Energy, Utilities, and Communications Committee. Moves to the Senate Committee on Appropriations.

**SB 881 (Min) Load-serving entities: integrated resource plans. - Support**
This bill will clarify that in addition to planning, the CPUC’s IRP process should also ensure that utilities follow through with their IRP commitments. This bill would provide greater clarity that the CPUC shall require utilities to undertake sufficient procurement to meet the electricity sector’s global warming emissions reduction target. This bill will also ensure that if utilities fail to meet their IRP requirements, then the CPUC can assess penalties and authorize another entity to satisfy unmet procurement needs.
Held in the Senate Committee on Appropriations.
Promoting Climate Change Mitigation and Resilience

**SB 260 (Wiener) Climate Corporate Accountability Act - Support**
This bill will require publicly traded corporations with annual revenues in excess of $1 billion that do business in California to publicly disclose their greenhouse gas emissions from the prior calendar year. The bill would also require the Air Resources Board to develop and adopt regulations requiring those large corporations to set emissions targets based on the entity’s emissions.
Passed Senate. Moves to Assembly Natural Resources Committee.

**SB 1026 (Wieckowski) Energy Efficiency Transparency for Tenants - Support**
This bill would require landlords to disclose the energy efficiency of units to potential renters. It would also allow the renter to request the annual cost of utilities from the unit’s electricity provider.
Passed Senate. Moves to Assembly Committee on Utilities and Energy.

**SB 1393 (Archuleta) Restricting Building Electrification Efforts - Oppose Unless Amended**
This bill will inhibit cities’ ability to reduce greenhouse gas and NOx emissions by adding burdensome requirements for the adoption of local building codes that require the replacement of fossil fueled appliances with zero emission electric ones.
Passed Senate. Moves to Assembly Committee on Utilities and Energy.

**SB 1078 (Allen) Financing Sea Level Rise Resilience - Support**
This bill seeks to address climate crisis coastal impacts by establishing a revolving fund to provide local governments with a new and badly needed financing option to address sea level rise. This bill specifically focuses on low-income communities, communities of color, tribal communities, and other disproportionately affected communities and populations who bear the brunt of impacts from climate change as a priority.
Passed Senate. Moves to Assembly Committee on Natural Resources.

Furthering Clean Transportation

**SB 1010 (Skinner) Zero Emission Public Vehicles - Support**
This bill will reduce carbon and criteria emissions from California’s public fleets by moving the state’s light-duty fleet to 50% of new purchases being ZEVs by July 1, 2024, and reach 100% of new purchases by July 1, 2026. The bill will also require at least 50 percent of new heavy-duty vehicles (over 19,000 pounds) purchased by the State to be zero-emission by the end of 2024, growing to 100 percent of new purchases by the end of 2027.
Passed Senate. Moves to Assembly Committee on Accountability and Administrative Review.
**AB 1919 (Holden) Youth Transit Passes - Support**
This bill will increase the use of transit, decrease vehicle miles traveled, improve public health, and decrease greenhouse gas emissions by creating a program that would provide free transit passes for all Californians under 25 years of age.
Passed Assembly. Moves to Senate Committee on Transportation.

**Providing Clean and Safe Water for All**

**AB 2108 (Rivas) Ensuring Environmental Justice in Water Policy - Support**
This bill would require environmental justice and/or tribal community representation on each Water Board, and would establish a community capacity building program at the State Water Board to meaningfully involve potentially impacted communities for major projects and appropriate minor projects in underrepresented or identified vulnerable or disadvantaged communities.
Passed Assembly. Moves to Senate Committee on Natural Resources and Water.

**AB 2201 (Bennett) Community Drinking Water Protection Act - Support**
This bill would prohibit a local agency in high or medium priority basins from approving a permit for construction of a new groundwater well unless the GSA determines it would be consistent with the applicable Groundwater Sustainability Plans.
Passed Senate Committee on Natural Resources and Water. Moves to Senate Committee on Governance and Finance.

**SB 222 (Dodd) Water Ratepayer Assistance Program - Support**
This bill would establish a long-needed framework for a statewide water affordability assistance program.
Passed Assembly Appropriations Committee. Moves to Assembly Floor.

**SB 890 (Nielsen) Giveaway for Water Storage Projects - Oppose**
This bill would promote the public funding of environmentally destructive water projects by establishing putting taxpayer dollars into a state fund for these projects.
Died in Senate Natural Resources and Water Committee.

**SB 1219 (Hurtado) Promoting Water Mismanagement - Oppose**
This bill would require the State to convene a committee made up of Agency and legislative appointments to develop a “strategic vision” for California water policy. This bill creates additional processes, at taxpayer expense that would further delay urgently needed reforms to protect safe drinking water, endangered species, and the environment.
Pulled from Assembly Committee on Water Parks and Wildlife.

**Advancing Equity, Education, and Social Justice**
AB 1939 (Rivas) Promoting Climate Literacy - Support
This bill would advance climate literacy by making climate change a course requirement and graduation requirement for our future leaders.
Passed Assembly. Moves to the Senate Committee on Education.

AB 2419 (Bryan) Ensuring Equity in Investments - Support
This bill would ensure that federal climate and infrastructure investments will advance California’s goals to promote equity, environmental justice, and a high-road economy through targeted investments to disadvantaged and low-income communities.
Passed Assembly. Moves to Senate Committee on Education.

AB 2053 (Lee) The Social Housing Act - Support
This bill would address California’s affordable housing crisis by advancing sustainably-built social housing using a mixed-income model.
Passed Assembly. Moves to Senate Committee on Housing.

Reducing Toxics Exposure

AB 1817 (Ting) - Reducing PFAS Exposure - Support
This bill would address PFAS exposure by phasing out toxic per- and polyfluoroalkyl substances (PFAS) in clothes and textiles sold in California.
Passed Assembly. Moves to Senate Committee on Environmental Quality.

AB 2146 (Bauer Kahan) Addressing Pesticide Use - Support
This bill would fill an existing void in the regulation of neonicotinoid pesticides (neonics) by banning non-agricultural uses of the top five neonics.
Passed Senate Committee on Environmental Quality. Moves to Senate Committee on Appropriations.

Cutting Waste

AB 2784 (Ting) Thermoform Minimum Content- Support
This bill would set a minimum recycled content requirements for plastic thermoform food containers (i.e. berry boxes) and establish minimum recycled content using a phased approach – starting at 10% and eventually reaching 30% and set penalties for manufacturers that do not meet the requirements.
Passed Assembly. Moves to Senate Committee on Environmental Quality.

AB 1724 (Stone) Combating Microfiber Pollution - Support
This bill would require all new and state-owned washing machines to require microfiber filters on or before 2024. This bill will help curb microfiber pollution, one of the most common types of microplastic pollution globally.
Held in the Assembly Committee on Appropriations.
**AB 1857 (Garcia) Ends Diversion Credits for Incineration - Support**

This bill will remove the diversion credit for municipal solid waste incinerators and redefine incineration as disposal. This will disincentivize the use of dirty incinerators and incentivize composting and recycling.

*Passed Assembly. Moves to Senate Committee on Environmental Quality.*
